

VASTEC

DOCUMENT AND INFORMATION CONVERSION AND MANAGEMENT

The Defense Base Closure and Realignment (BRAC) initiative is creating a space crisis for many departments. VASTEC can help, with advanced technology to digitize and convert paper and all other media into electronic information. This does much more than solve storage problems, it also makes information easily accessible, searchable, and retrievable. All data is converted into information compliant with the Section 508 of the Rehabilitation Act.

SERVING THE DEPT. OF DEFENSE

- ✓ U.S. Army Physical Disability Agency (PDA)
- ✓ Army Review Board Agency (ARBA)
- ✓ Office of the Surgeon General (PASBA)
